AI Use in Course Development

Designing and Delivering Accessible Online Courses. Licensed CC BY 4.0.

Course Development Tools and Resources

AI Use in Course Development

Generative AI tools were utilized to support course design. Final content and instructional decisions were made by the course design team. Canva - Used for image inspiration of course visuals. ChatGPT (OpenAI) - Used in support of writing, brainstorming, and organizing content. Gemini - Used in support of course development to inspire images, outline structure, and brainstorm content. Adobe Podcast - Used in background noise removal of audio.
