Document Title & Language

1. Menu > Document Properties > Description > Title (enter a clear title).
2. Document Properties > Advanced > Reading Options > Language (select the correct language) > OK.

Check Tags & Reading Order

1. Open Tags panel: View > Show/Hide > Navigation Panes > Tags.
2. Open the Order panel (if available) to preview reading order.
3. Fix reading order using Tags and Tools > Accessibility > Reading Order (Fix Reading Order).

Fix Headings

1. In the Tags panel, find headings tagged as P.
2. Right-click the tag > Properties.
3. Change Type to the correct heading level such as H1, H2, H3.

Add Alt Text to Images

1. In the Tags panel, find the image tag (Figure).
2. Right-click Figure > Properties.
3. Add text in Alternative Text (short + meaningful).
4. If decorative, mark it as decorative/artifact (as appropriate).

Create Accessible Tables

. All Tools > Prepare for Accessibility > Fix Reading Order. Select the table > choose Table Editor. Table Editor Options > check Show Cell Type (TH/TD) > OK. Set headers: right-click a header cell > Table Cell Properties > Header Cell + set Scope (Column/Row). 5. Add a summary: in Fix Reading Order, right-click the table > Edit Table Summary > write 1-2 sentences.

Pena

Tag Lists Correctly

1. In Tags, find list items tagged as P.
2. Create list structure: A. L (List) > LI (List Item) for each line 42 B. Inside each LI: Lb! (bullet/number) + LBody (text) 3. Use Fix Reading Order to separate bullet/number from the text if needed. 4. Drag tags so each LI contains one Lbl and one LBody.

Run Accessibility Checker

. All Tools > Prepare for Accessibility > Check for Accessibility. Click Start Checking. Fix Errors and Warnings.

Pensa

For manual items (ex: Reading Order, Color Contrast), verify them yourself, then right-click and mark Pass if correct. 5. Save the PDF. 212
