Microsoft PowerPoint Quick Guide

Designing and Delivering Accessible Online Courses. Licensed CC BY 4.0.

Key Terms: Accessibility Inspection Panel

- Errors: Identifies critical accessibility issues that must be fixed.
- Warnings: Flags potential accessibility issues that require review.
- Tips: Suggests best practices to improve usability. Below are the steps to begin review and remediation of Word documents.

1. Run PowerPoint’s Accessibility Checker

, A. Review > Check Accessibility.

, B. Review the Inspection Results pane.

, C. Address each issue listed.

, D. Recheck after correcting.

2. Document Title & Language

, A. File > Info > Properties > Title (type a descriptive title). , B. Review > Language > Set Proofing Language. , C. Select the correct language > check Do not check spelling or grammar > OK. 3. Use Unique Slide Titles

, A. Go to View > Outline View. , B. Check titles for duplicates. , C. Rename duplicates (e.g., “Common Barriers Part 1” / “Common Barriers Part 2”). 4. Use Slide Layouts (Best for Accessibility)

, A. Home > Layout. , B. Choose a built-in layout (Title + Content). , C. Avoid using text boxes for everything (use placeholders when possible). 5. Add Alt Text to Images

, A. Right-click the image > View Alt Text.

, B. Write a short, meaningful description (purpose + key info).

, C. Don’t start with “Image of...”

, D. If decorative, check Mark as decorative.

6. Make Hyperlinks Descriptive

, A. Select the link > Right-click > Edit Link. , B. Replace “Click here” or raw URLs with clear text (where it goes). , C. Make sure links look like links (underline + good contrast). 42 7.

Ensure Font Size & Readability

, A. Use 24pt+ for body text (recommended). , B. Keep headings larger than body text. , C. Avoid long All Caps text. 8. Check Reading Order

, A. Home > Arrange > Selection Pane. , B. Reorder objects so the reading order makes sense. , C. Screen readers read from bottom to top in the Selection Pane. 9. Ensure Color Contrast Is Clear

, A. Use high contrast (dark text on light background or vice versa). , B. Don't use color alone to show meaning (add text/icons).

Manual Check

Avoid relying on the accessibility checker alone. - Manually verify title set as Slide Title and not just a text box. - Ensure alt text includes textual description of images, graphs, charts, and other visual elements.

- Confirm sufficient contrast for text, icons, and charts.
- Use a contrast checker such as WebAIM's Color Contrast Checker. (<https://webaim.org/resources/contrastchecker/>)
- Test accessibility with a screen reader ; (<https://support.microsoft.com/en-us/office/make-your-powerpoint-presentations-accessible-to-people-with-disabilities-6f7772b2-2f33-4bd2-8ca7-dae3b2b3ef25>)_ tool such as the Windows built-in tool Narrator. 212
