Module 3 Overview

Designing and Delivering Accessible Online Courses. Licensed CC BY 4.0.

Microsoft PowerPoint

In this module, you will learn how to create accessible PowerPoint documents that accommodate the needs of all students, including those who use assistive technologies. Through guided demonstrations, you will explore best practices for applying key accessibility features in PowerPoint documents that align with WCAG 2.1 AA standards. You will also use PowerPoint's built-in Accessibility Checker and manually review and correct remediate documents for accessibility issues.

Learning Outcomes

By the end of this session, you will be able to: 1. Apply accessibility-aligned structure in PowerPoint. 2. Evaluate and revise PowerPoint content using accessibility principles. 3. Use automated and manual accessibility review methods.

Activities

1. Accessible Microsoft PowerPoint Video
2. Microsoft PowerPoint Quick Guide
3. Knowledge Check
4. Apply It: Microsoft PowerPoint
5. Resources

Estimated Time: 30 minutes

Digital Accessibility for Faculty. Produced with Technology Innovation and Digital Education (TIDE), Texas A&M University-Texarkana. Shared under CC BY 4.0.
