

Resources (MS PowerPoint)

These resources are supplemental references for accessibility concepts covered in this module. These materials are available for optional use.

[Contrast and Color Accessibility](https://webaim.org/articles/contrast/)  (<https://webaim.org/articles/contrast/>) (WebAIM)

This resource explains how **color contrast and color reliance** impact accessibility for users with **low vision or color blindness**. It clarifies contrast requirements, common contrast failures, and why visual distinctions in PowerPoint must not rely on color alone.

[8 tips to a more accessible Microsoft PowerPoint document](https://web.accessibility.duke.edu/8-tips-more-accessible-microsoft-powerpoint-document/) 

(<https://web.accessibility.duke.edu/8-tips-more-accessible-microsoft-powerpoint-document/>) (Duke University)

This resource outlines practical, **PowerPoint-specific accessibility practices, including slide layout, reading order, color use, meaningful links, and accessible images**. It reinforces core concepts from this training while highlighting common issues that are easy to overlook when creating or revising slides.

[Use an accessible presentation template](https://support.microsoft.com/en-us/office/make-your-powerpoint-presentations-accessible-to-people-with-disabilities-6f7772b2-2f33-4bd2-8ca7-dae3b2b3ef25#bkmk_templatewin)  (https://support.microsoft.com/en-us/office/make-your-powerpoint-presentations-accessible-to-people-with-disabilities-6f7772b2-2f33-4bd2-8ca7-dae3b2b3ef25#bkmk_templatewin) (Microsoft)

This resource will help you **find an accessible presentation template in Microsoft PowerPoint**. Using an accessible PowerPoint template ensures that slide layouts, colors, contrast, and fonts work for all users. These templates are designed with a built-in structure for screen readers to interpret the slide content.
